SKILLS
COMPASS BEARINGS

REQUIREMENTS
orienteering compass, measuring tape, 5 markers

INSTRUCTIONS
A set of bearings and distances is given in the table below:

You are to use an orienteering compass and measuring tape to mark out the points of the bearings below with the markers provided. Start by facing north and then map out the bearings. Mark each point with a marker.

Complete the blank spaces in the table below.

Point	Bearing	Distance
Start to A	060º	4.3 m
A to B	320º	5.0 m
B to C	230º	2.5 m
C to D	Due East	3.1 m
D to Start		

Draw a sketch below of the points you marked out in the box below.
Use a scale of 1 : 150.
Be sure to mark the North arrow on your diagram.
Be sure to mark your bearings at each point.
